FUSION.

Why the Republicans nominated Judge H. R. French their candidate for County Circuit Court Clerk is not susceptible of surmise. The leaders saw defeat and this is a scheme of theirs by which they hope to carry the county. They accepted Judge French as he is, without conversion. Judge French is a sound money Democrat, and just before going to the Courthouse his language was: "I am a Democratic."

The Republicans down in the common walks will not be satisfied with this preferment after having toiled all these years for party supremacy, having rocked the babe in the cradle. They are right when they compare their worth to the party with that of a man who has ever been their pronounced antagonist, and are grieved by his preference over them. Republicans are pledging to the Democratic nominee and it is said will take the entire Democratic ticket rather than by their vote give support to such a scheme.

Our "across-the-way" contemporary is painfully silent about the candidacy of Larson Hopkins the Republican nominee for Congress in this district. The only thing that indicates he is the candidate of that party is the appearance of his name at the head of the editorial column.

The Republican party has endorsed a man who drew the salary of an office to which he was not elected, and in the name of "Civil Liberty" we do not think that the Gazette is treating the brother exactly right in not advocating him for election. But then it is not our funeral.

No man appreciates Judge French's talents and accomplishments more than we, and as a Democratic nominee, having returned to his party, would have been glad to have given him support. Politically speaking, he is wrong, in bad company, on a platform directly opposite to that, to which he subscribed in 1896, the Indianapolis platform. He is to be pitied, for by his course he may accomplish republican defeat and will forever suppress his political ambition.

In this issue we finish the Mt. Sterling speech of Col. Bennett H. Young. His argument is strong and conclusive, and it would be of value to every man, Democrat or Republican, to study it. There are demands for this speech and it should be accepted as a campaign document. By it, doubting Thomases will find permanent relief.

The debt incurred by the colored people of this city for the purpose of securing good school buildings is laudable. They will undertake to raise \$1500 between now and next January, and we bespeak for them the generosity of our people. The colored man is making an effort to develop his talents for good and in this they will be encouraged.

The Gazette says: "That 'thief' is branded upon the forehead of every man who holds an office to which he was not elected." This statement is pretty tough on old brother Hopkins, whom the aforesaid Gazette is supporting for Congress in this district.

It further says: "We do not expect Democratic orators to tell the truth, but we want all lovers of civil liberty to investigate every statement they make before making up their mind to believe it." Now whatever Republicans are accused of, they will not deviate from the truth. Mr. Taylor said he would come back to his old Kentucky home, and stand his trial for complicity in the murder of Senator Goebel, and every one knows he came.

It further depose and says: "that Beckham should be dubbed 'The Man Without a Conscience.'" Well the trouble with "Fugitive" Taylor is, that he has too much conscience; the reason that he is such a coward, for conscience makes cowards. When Billie Shakespeare wrote these significant lines, Taylor was not on this earth, if he had been, "Fugitive" Bill could have given him some pointers.

Consumption

by no means, the dreadful disease it is thought to be in the beginning.

It can always be stopped in the beginning. The trouble is, you don't know you've got it; you don't believe it; you won't believe it—till you are forced to. Then it is dangerous.

Don't be afraid; but attend to it quick—you can do it yourself and at home.

Judge W. F. Hall—Nominee for Court of Appeals.

The Democrats of the 7th Appellate Court District met in Winchester on last Saturday to nominate a candidate for Judge of the Court of Appeals.

The Convention was called to order by Hon. D. W. Gardner, and on motion of the Hon. C. W. Metcalf, of Bell county, Judge Robert Riddle was elected Chairman, and Capt. W. T. Havens, of Mt. Sterling, was elected Secretary.

All of the counties in the district were represented, and the convention was very enthusiastic. The name of Judge Hall was presented by Judge Sampson, of Bell, in an eloquent speech, and speeches seconding the nomination were made by Hon. J. Wolfe, Judge J. M. Benton, of Clarke, and O. H. Pollard, of Breathitt. The nomination was made by acclamation.

Judge Hall made an eloquent speech in accepting the nomination and impressed the convention that he is a winner.

The nominee of the convention is about 40 years of age. He is an able lawyer, and a Circuit Judge of the 26th Judicial district, discharged the duties of that office with signal ability. As a campaigner he is remarkable, having in his first race for Judge, overcome a republican majority of 3500, and winning by over 440 votes.

He is of charming personality, and can unite, and with unity in the party he can be elected, notwithstanding the district is largely republican. Judge Hall will make an active canvass, and we predict that our distinguished fellow citizen who has an idea that he is running for a bad office, will have a bad case of sea sickness on the 6th of November. Let every Democrat pull off his coat and work for Hall, and his election is assured.

Judge Ed. C. O'Rear is a candidate, but this is not his picture, it is our picture.

C. W. B. M. Reception.

On Thursday evening the ladies of the C. W. B. M. of the Christian Church, entertained at the home of Mr. and Mrs. Jas. L. McCormick in honor of Mr. and Mrs. Forester. The yard and veranda were illuminated with Japanese lanterns and the elegant interior was decorated with a profusion of golden red and yellow daisies most artistically and beautifully arranged.

It was the pleasure of the guest on entering to be presented to Mrs. Forester, president of the local C. W. B. M., Mr. and Mrs. Forester, the guests of honor, Mr. and Mrs. H. H. Clark, and Mr. and Mrs. McCormick. Refreshments of delicious and appropriate variety were elegantly served.

The Kentucky Synod of the Presbyterian Church will meet in Flemingsburg on Tuesday, Oct. 9th, and last for several days. At the close of the meeting, Rev. and Mrs. A. Judson Arrick will come to Mt. Sterling for a visit and Mr. Arrick will preach in the First Presbyterian Church on Sunday, Oct. 14.

FILIPINO ACTIVITY.

Brick Attacks at Las Pina and Pansan. Also in the Zamboanga and Batangas Provinces.

Manila, Oct. 1.—The Filipinos in the vicinity of Manila have been more quiet of late, although last Wednesday night there were brick attacks at Las Pina and Pansan, south of Manila, as well as outpost firing at Juos, Itaco and Martin Lapa. The American officers are satisfied that the alleged amigos living in and around the towns in question participated in these attacks.

Official reports have been received of insurgent activity in Zamboanga province and in Batangas province. Two skirmishes occurred during the week on the Ilocos River, in the province of South Camarines. It is estimated that the insurgents lost 90 killed in the various districts.

Two Civilian Deaths.

Two civilians, John McMahon and Ralph McFarland, of San Francisco, who started on a business trip for Vigan and Benguet, in Northern Luzon, have not been heard from for three weeks.

FOR STORM SUFFERERS.

Amount of Money Received By Gov. Sayers Was \$672,476.29—includes Funds in Transit.

Austin, Tex., Oct. 1.—Regarding the contributions for the Galveston flood sufferers, Gov. Sayers Sunday gave out the following statement:

"The amount of money received by me up to 12 o'clock noon of September 30, 1900, for the benefit of the storm sufferers on the Texas coast, is \$672,476.29. This sum includes \$3,892.50 that remained in my hands of the fund contributed for the relief of the Brazos River valley sufferers last year. It also includes all drafts and authorizations to draw and which are in transit and are yet uncollected. This statement, it must be borne in mind, embraces only moneys and receipts that have been made to me directly, and also amounts for which I have been authorized to draw.

"During the present week I will submit to the people of the United States a full and complete itemized statement of the entire fund that has come into my hands, giving the amount and source of each contribution, and also the manner in which the sum total received by me has been expended and distributed.

"Every portion of the storm stricken district is being provided for."

BUILDING VESSELS.

During the Past Quarter \$8,750 Gross Tonnage Vessels Constructed and Officially Numbered.

Washington, Oct. 1.—The quarterly statement of the commission of navigation shows that 304 vessels of 88,750 gross tons were built in the United States and officially numbered during the quarter ended September 30, 1900. Of the vessels constructed of wood 100 were sail and 127 steam. Of the steel vessels four were sail and 17 steam. Of the whole number 190 were built on the Atlantic and Gulf coasts; 28 on the Pacific; 32 on the great lakes, and 38 on the western rivers. The largest tonnage, 37,057, was on the great lakes, and the next largest was on the Atlantic and Gulf coasts.

Two Persons Killed in a Wreck. Oklahoma City, O. T., Oct. 1.—A Santa Fe passenger train was wrecked at Waterloo, 18 miles north of here, Sunday. Three persons were killed and three were fatally wounded. Tom Mayers, of Oklahoma City, a traveling man, was one of the killed.

Secretary Hay at His Desk. Washington, Oct. 1.—Secretary Hay returned Sunday from his summer's vacation in New Hampshire and Monday occupied his desk at the state department. Dr. Hill, who has been acting secretary the latter part of the summer, spent several hours with the secretary.

Dead of Blood Poisoning. Poughkeepsie, N. Y., Oct. 1.—Elizabeth Johnston, aged 16, daughter of Brooks Johnston, of St. Louis, died of blood poisoning at Lydon Hall school in this city, where she was preparing for Vassar college. The disease first manifested itself in the form of a swelling on the lip.

The Judge Will Resume His Seat. Milwaukee, Wis., Oct. 1.—A recent operation for catarrh performed on the eyes of Judge James G. Jenkins of the United States circuit court has been a complete success and the judge will be able to resume his seat on the bench in a few weeks.

Forrest Hamman Extended. Columbus, O., Oct. 1.—Gov. Nash ignored a requisition from Gov. Beckham, of Kentucky, for Forrest Hamman, wanted in Kanton county, Ky., to answer to the charge of stealing a horse and buggy, the property of Percy G. Howell.

Death of Gen. Cotton Greene. Memphis, Tenn., Oct. 1.—Gen. Cotton Greene, prominent as a Confederate soldier and leader of a brigade under Gen. Sterling Price, of Missouri, died here Sunday, aged 65.

CANCER

Cannot be Cut Out or
Removed with Plasters

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure Cancer. No matter how much a cancerous sore is removed, another comes at or near the same point, and always in a worse form. Does not this prove conclusively that Cancer is a blood disease, and that it is folly to attempt to cure this deep-seated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for the poison?

Cancer runs in families through many generations, and those whose ancestors have been afflicted with it are liable at any time to be stricken with the deadly malady.

Only Blood Diseases can be Transmitted from One Generation to Another

Further proof that Cancer is a disease of the blood. To cure a blood disease, you must cure the entire blood system—remove every trace of the poison. Nothing cures Cancer effectually and permanently but S. S. S.

S. S. S. enters the circulation, searches out and removes all taint, and stops the formation of cancerous cells. No mere tonic or ordinary blood medicine can do this. S. S. S. goes down to the very roots of the disease, and forces out the deadly poison, allowing the sore to heal naturally and permanently. S. S. S. at the same time purifies the blood and builds up the general health.

A little pimples, a harmless looking wart or mole, a lump in the breast, a cut or bruise that refuses to heal under ordinary treatment, should all be looked upon with suspicion, as this is often the beginning of a bad form of cancer.

Mr. Sarah M. Keating, of Windsor Ave., Bristol, Tenn., writes: "I am 45 years old, and for three years had suffered with a severe form of Cancer on my jaw, which the doctors in this city said was incurable, and that I could not live more than six months. I accepted their worst case, and had given up all hope of ever being well again, when my druggist, knowing of my condition, recommended S. S. S. I bought a bottle, and began to use it, much to the surprise of the physicians, and in a short time made a complete cure. I have gained in flesh, my appetite is splendid, sleep is refreshing—in fact, an enjoying perfect health."

Our medical department is in charge of physicians of long experience, who are especially skilled in treating Cancer and other blood diseases. Write for any advice or information wanted, we make no charge whatever for this service.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

IN THE ARMS OF MORPHINE.

A Physician Offers a Few Suggestions on Sleeplessness.

"I passed a sleepless night," said a physician, "and I am forcibly reminded to-day how exacting is nature in her demands for the enforcement of the physical law of compensation."

"We do not know why we sleep, nor what sleep really is, and it is too deep a question to be disposed of in a paragraph. We only know that 'sleep,' whatever it is, the human brain must have, and though the body may sustain itself without food and water for indefinite periods, sleep cannot be put off and is absolutely overpowering in its demands."

"There are many theories, understood, why we sleep. One is that the blood vessels in the brain contract, and with the decreased circulation and pressure that organ assumes a condition known as sleep. Some hold that the extremities go to sleep first, and lastly the brain. Take your choice; it is free. But this we do know—that the brain does not lose consciousness and it is not asleep. It is merely held in suspension for such time as we pass in sleep."

"Why or how this is done is still theoretical. For that matter, there are several important organs of the human system upon which physiologists still disagree as to their functions. Therefore, they are classified as 'not being yet fully understood.'"

"A physician can give a 'sure-shot' remedy for sleeplessness—that cure of the present age of struggle and push. It is very largely a matter of cause, temperament and environment. Remove the cause in each individual case and a different effect is produced."

"Here, however, a few common-sense suggestions, when stripped of technical verbiage, may prove of value to some of our readers:

"Positively no tea or coffee at dinner. No exceptions to this mandate. Avoid excitement and animated discussions in the evenings. If you are dissatisfied, indulge your proclivities during the day. 'Think' drives the blood to the brain; therefore, break up the 'thinking' and the 'worrying' habits over the present or the ensuing day's events. Hot foot baths, hot milk, a plate of hot soup, a little food easily digested, taken before retiring, will tend to equalize the circulation and draw the blood from the brain, which is the desideratum in all cases of sleeplessness."

"I am one of a class of physicians who do not believe in starving the body. Not that I advocate heavy eating on a part of plethoric persons. Fourteen hours—from six p. m. till eight a. m. the following day—is too long to go without food where persons are delicate or inclined to sleeplessness. If they do not retire by ten o'clock a light repast, such as I have suggested, should be partaken."

"I have found in some cases hard rubbing of the body with a crash towel to prove to be too stimulating. Yet such a rubbing, preceded by light exercise of the arms and legs just before retiring, will send some patients into sound and refreshing slumber, as well as build up most satisfactorily their physical system."

"Narcotics are bad. They are easily prescribed, however. Morphine subdues an evil condition only to induce a worse one. Chloral hydrate, the sleeping poison of the novelties, is a deadly poison. It is exceedingly dangerous, even on a physician's prescription, when the reason that an over or an accumulative dose may be taken, the latter occurring when the victim, not securing the re-

ATLANTA DAILY CONSTITUTION

Now Running a Special Campaign Offer, Only \$1.00.

The Constitution, of Atlanta, Ga., is now offering its Daily and Sunday editions complete to new subscribers from the date the order reaches that office until November 10th for only \$1.00. This large campaign offer will take the subscribers beyond and give them the full news of the presidential election. The period thus covered will be of unusual interest, not only because of the election and the questions pending thereon, but it will be full of events, and guesses at the truth of reported events in China. The struggle is on between the 'yellow terrorists' and the 'foreign devils' and it will continue the world's attention for many months to come. It is probable that South Africa will become peaceful on a basis that will allow the spunky Boers to lay down their arms with honor. Cuba and the Philippines are with us and until their status is determined their question will continue to be ours. The Constitution always covers all the news completely and this exceptional offer will doubtless take there full capacity in supplying the paper to thousands of thirsty subscribers. The sooner you send for it the longer you will get it for your dollar.

"Whisky will put one to sleep if one takes enough of it, as it will also bury one. Malt liquors have a soporific effect, but anything which contains alcohol, if taken in quantities, is injurious, especially to patients with kidney affections. Ten or fifteen grains of sulfonal or five or ten grains of trional has often given me needed slumber, and they are perhaps the most innocuous of the narcotics prescribed—but look out for the 'habit'! The bromides quiet the nerves, but the bromide 'habit' may soon become established and eruptions produced over the body which will take weeks to eradicate."

"The lying with the eyes wide open. The lids after while will become muscularly weary, and with some patients sleep suddenly comes. Patients will lie for hours with their eyes shut, the brain alert and active, hoping, by closing the lids, to induce slumber. Try keeping them open. Instead of saying: 'Oh, if I could but sleep,' say and feel: 'Well, I don't care whether I sleep or not.' You will find that this stratagem will accomplish astonishing results. And don't care, either. Never, never think of 'tomorrow,' for it never comes, and you will spend your life engaged in that thought."

"Some of my patients have been cured by keeping the lids up as directed and occasionally looking at the gas jet, allowed to burn a very faint taper, but not so as to illuminate the room. I do not approve of a totally dark room for insomnia cases. Some physicians do. It has been my experience that the brain seems to work with abnormal force and vigor when the lids are down in a totally dark room, but, as I have said, conditions and temperaments differ, so that only general suggestions may be given. Traveling will break up sometimes the most stubborn cases of insomnia."—Washington Star.

W. O. MCCORMICK.

It's up to the People.

Less than a year remains in which to gather facts, and information that will influence your vote for the next president of the United States.

That grievous wrongs have been committed, and grave errors allowed to exist without effort at correction, is evidenced by the speech, writings, and comments of eminent statesmen and jurists; congressmen and leading men of business, professors and clergymen in every state.

Party affiliations have been ignored in the outcry against thrusting aside the safeguards of our fathers and making pell-mell into the affairs of Europe.

The situation is a deplorable one if not alarming; as is also our domestic affairs dominated by gigantic trusts.

The evils are not of spontaneous growth! They are the result of years of labor and expenditure of millions of dollars! Beginning with the displacement of American silver for European gold, the cunning of England's diplomacy in shaping the destiny of our Republic is apparent to any ordinary observer seeking the true inwardness of events.

The Cincinnati Enquirer has frequently called attention to such and every move as it was transpiring, and during the campaign of 1900 with present its readers with a truthful array of facts that will be extremely interesting and startling.

No fair-minded American, be he Republican, Democrat or of other political faith, can afford at this critical time to ignore the truth. Partisan prejudice, with the Trusts as dictators, is a far more degrading slavery than that which existed previous to the Civil War of '61-'64.

Trusts in the United States alone have a representative capital greater than all the gold and silver in the world. These will spend many more millions of dollars to suppress truth and facts and mislead all who fail to look beyond their plausible deceptions. Read the Enquirer and you will be able to discern the truth and combat falsehood. A victory for Trusts and the McKinley Administration in 1900 will end the era of greatest good to greatest number.

Watch carefully the Cincinnati Enquirer.

TROOPS LEAVING.

Bulk of the Russian Soldiers and the Legation Take Their Departure From Peking.

A FORCE OF ABOUT 2,000 WILL REMAIN

Preparations for the Withdrawal of the Larger Part of the United States Force Being Made.

Airline commanders decided to dispatch combined land and naval expedition to Shan Hai Kwan, as the toll of Liao Tung.

Peking, Sept. 23, via Taku, Sept. 24, via Shanghai, Oct. 1.—At the conference of generals today the Russian commander, Gen. Linovitch, announced the immediate withdrawal from Peking of the bulk of the Russian troops and the legation. It will leave on Thursday, September 27, and the legation will follow on Saturday. There will remain a mixed force of about 2,000 to represent Russia.

Gen. Linovitch asserted that the dispatch from St. Petersburg transmitting the order to withdraw contained a statement that all the powers were adopting the same policy. The other generals replied that they had received no orders of that nature.

German and Japanese columns are operating to the southwest near the Imperial deer park.

Friction Between Allies.
Sir Alfred Gaselee, the British commander, has gone to Tien-Tsin to inspect the British troops there. Friction between the British and Russians over the railway continues, each party seizing and guarding small sections. The resulting is an systematic and the completion of the work very indefinite.

Tien-Tsin, Sept. 2, via Shanghai, Oct. 1.—Orders from Washington directing the withdrawal of the bulk of the American troops were received this afternoon and preparations to comply will be begun immediately. Gen. Chaffee is here directing the movement, which will commence as the earliest possible moment.

It is understood that the plan contemplates leaving a regiment of infantry, a squadron of cavalry and a battery of artillery in Peking to protect American interests and that the remainder of the troops will proceed to Manchu.

Land and Naval Expedition.
The allied commanders had decided to dispatch a combined land and naval expedition to Shan Hai Kwan, on the gulf of Liao Tung, leaving Taku October 1, the total land force being 42,000. The American detail had not yet been made, nor had a decision been reached as to the naval force. Now that the order to withdraw has been received from Washington, it is possible that the plans for the expedition will have to be modified, so far as American participation is concerned. Gen. Chaffee is proceeding on the opposite assumption and has orders to take the marine battalion to prepare to go.

The United States armored cruiser Brooklyn was previously the only American war ship in the expedition. The troops will go by water and will be landed south of Shan Hai Kwan. They will cooperate with a large Russian contingent already on the way.

The news of the American withdrawal created a sensation among the representatives of the other powers here.

SHOOTING ON A TRAIN.

Colored Porter on the Florida Express Seriously Wounded—Pallman Conductor Near Death.

Philadelphia, Oct. 1.—Julius Washburn on the Florida express on the New York express on the Pennsylvania railroad, Sunday shot and seriously wounded A. E. Hinkle, the Pullman conductor of the train whose home is in this city. The shooting occurred just after the train had left Chester, Pa., Sunday afternoon, for this city, and was the result of a quarrel.

According to those on board the train the conductor and the porter had been quarreling all the way from Washington and after leaving Chester the dispute again arose over a ticket.

Death of Heart Failure.

New York, Oct. 1.—Joseph Silverman, 18 years old, a wholesale liquor dealer of Great Falls, Mont., died suddenly of heart failure Sunday afternoon while visiting the home of Joseph L. Levy, of this city. Mr. Silverman, being in a heated mood, had come to New York early in the summer to get the benefit of the sea air at Brighton Beach.

Stage Coach Held Up.

Boise, Ida., Oct. 1.—The Ontario and Burns stage coach was held up 70 miles out of Ontario by a lone highwayman. The robber stopped the stage by firing a shot across the road, "he demanded the mail, which was thrown out. The stage was not further molested.

Must Wear Short Skirts.

El Paso, Tex., Oct. 1.—The school board has issued an order that female school teachers wear short skirts while on duty as a sanitary measure. The order has caused much comment and feeling.

DEMOCRATS CAUCUS.

They Have Reached An Agreement on the Kentucky Electricity Bill, and It Will Pass.

Frankfort, Ky., Sept. 27.—The democrats of the house Wednesday morning reached an agreement on an election bill, and it will pass without a dissenting democratic vote. The agreement was reached at a meeting of the house special committee on suffrage and elections, both conservatives and radicals being represented by their leading men. Messrs. Orr and Cochran represented the conservative element. Mr. Cochran said on Wednesday morning after the meeting: "Thank the Lord, our troubles are over and we have agreed upon a bill and it will pass." Mr. Cantrill was the only democrat absent. He said he was opposed to the bill, but would be bound by caucus action and vote for it. So a caucus will be held.

The bill agreed upon provides that the state board shall consist of one democrat and one republican and a state officer. They shall appoint the county boards, one or two from each party and from lists submitted. They shall also appoint an umpire. This will give the democrats a majority in each county board, but the boards shall have only ministerial powers, except as to questioned ballots. It is said that the democrats in the senate will readily accept this compromise.

Frankfort, Ky., Sept. 26.—The real fight over the election law may soon be raised in the senate. The democrats in the senate who favor the house bill were taking Friday night of offering the house makeshift as a substitute for the senate bill, and if this is done, a test vote will be had on it early. The senate listened to the first reading of the house bill and discussed the Alexander substitute, but took no action.

HOWARD SENTENCED.

Judge Cantrill Overruled a Motion for a New Trial and Named December 7 as Day of Execution.

Frankfort, Ky., Oct. 1.—Jas. Howard, convicted of the murder of Gov. William Taylor, was sentenced to hang Friday, December 7. The sentence was imposed after a motion for a new trial had been overruled. "I am innocent," said Howard. "The jury has passed on that question, and all the state can do is to pass sentence on you."

The court then turned to the clerk and directed that the sentence be suspended for 30 days, pending an appeal to the court of appeals.

The bill of December 7 as the day for Howard's execution does not mean that he will necessarily be hanged on that day. Howard has to wait from Saturday in which to go to appeal and a transcript of the trial record in the court of appeals. If he fails to file it in that time then he would, of course, have to be executed on December 7. But if he files it in proper time then it is with the court of appeals as to how long the decision will be delayed. It can be delayed until January or later, which event the governor is required to fix another date for the hanging if the sentence is affirmed.

BOTH ARE DEAD.

Wife's Throat Cut By Her Husband, Then He Slashed His Own—Little Girl Witnessed the Deed.

Beattyville, Ky., Oct. 1.—Walter Evans, a bright young man and brother of County School Superintendent Louie Evans, who lives about five miles south of here, from causes which are up to this hour unknown cut the throat of his wife from ear to ear, killing her instantly, and immediately applied the weapon to his own throat, with the same effect. Evans had been married only about one year and his wife was a beautiful woman 19 years of age. They seemed to live happily and there is no cause assigned by those who know the parties best for the rash deed. They had living with them a little girl about 5 years old, who was the only witness to the killing. Her screams brought good neighbors to the scene who arrived only in time to see the man falling near to hand.

Old-Time Jockey Killed.

Lexington, Ky., Oct. 1.—In a fight Tommy Blue, the once good jockey, had his brains blown out by John Bartlett, another jockey. The men quarreled over the payment of a drink in a barroom, and engaged in a fight with pistols. Blue was shot through the head and instantly killed. Bartlett was shot through the breast and left hand. John Showalter, also colored, is said to have taken part in the shooting.

They Had Been Drinking.

Mayfield, Ky., Oct. 1.—At a beer park here Saturday night Robert Butlock fatally stabbed Bob Butram in the abdomen. Both young men are well known, and Butlock, who has been locked up, claims he did the stabbing in self-defense.

Held Under Big Bond.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The members of the First Presbyterian church were greatly delighted at hearing the Rev. Henry M. Rogers, a former pastor, much beloved by all, preach on last Sunday night.

Next Sunday morning the sacrament of the Lord's Supper will be observed at the First Presbyterian Church. Preparatory services will be held on Wednesday evening at 7 o'clock.

W. S. Danley, D. D. Sixth President of Christian Endeavor, will deliver an address Saturday evening. Dr. Danley is one of the most gifted men in the State and it will be a rare treat to hear him.

The Fifth Annual Convention of the Fourth District Union of Christian Endeavor will be held in the Christian Church of this city, Oct. 5-7. First service Friday evening. Everyone is most cordially invited to attend all the meetings.

The discourse of Rev. W. M. Forrest at the Christian church Sunday morning signalled a memorial occasion. The large assembly listened with intense interest to his thrilling story of India's seventy millions of young men whose pitiable moral condition and heathenish appeal pangs are theologically to Christendom for help. Those who heard him could well understand why the wise women of the Christian Women's Board of Missions chose and commissioned Dr. Forrest for his special work among the uneducated Hindoos. His dignified and manly bearing, the delicious freshness and vigor of his thought, the clearness and precision of his expression adorned with occasional flashes of picturesque eloquence, his soul outpouring and varied expression, all reinforced by nature's rich dower, make

up a wealth of equipment full of promise to the young men of India. He goes to India's populous east, where the miriads of ambitious Hindu students gather from a population of three hundred millions to study literature, arts and sciences. Mr. Forrest proposes to establish his mission in the midst of these swelling myriads of alert inquirers after knowledge—probably the greatest educational center of the world. The helpful and guiding hand of his accomplished wife cannot but double his power for good.

Last Sunday was observed by the Sunday School of the First Presbyterian Church as Rallying Day. Invitations were sent to all the old pupils and teachers, whose addresses were known, and many who could not attend in person sent letters to be read. The singing was good, the solo by Mr. Allen Kalliff being especially fine. The special feature of the day was the reading of the roll, many old and tender memories were revived at the very mention of the names of those who had formerly gathered in the school. Letters were received from Washington, California, New Mexico, Kansas, India, Illinois, Ohio, South Carolina and Kentucky. Seven living from men who have gone out of the school into the ministry. Many alluded to the enterprise and

originality of Mr. L. T. Chiles, who has been superintendent for the past ten years. Mr. H. Clay Ramey, who was the organizer of the school, was also remembered by many for his zeal and enthusiasm. Mrs. Ann E. Chiles, who still teaches the infant class, has had charge of the class since the organization of the school, and almost every letter gave testimony to her influence on the early lives of her pupils. Rev. Henry M. Rogers, a former pastor of the church was present and gave a very interesting address. Since the organization of the school in 1852 there have been but three superintendents, Judge Richard Apperson, Jr., Rev. H. C. Ramey and the present incumbent. The welcome address on this occasion was made by Master Richard Apperson, a grandson and namesake of the former superintendent. The present pastor, Rev. George A. Joplin, took encouragement from the past and hopes for even greater things in the future.

The meetings conducted by Rev. D. S. Toy continue with increasing interest; large attendance at each service. Services at 3 p.m. at the Christian church and at 7:45 p.m. at the Southern Presbyterian church. Everybody cordially invited.

Kentucky Conference of the M. E. Church returns Rev. D. W. Robertson to this place; Rev. B. F. Corby goes to Hinton; Rev. F. A. Savage to Odenton; Rev. D. B. Cooper to Sharpsburg and Bethel; Rev. C. J. Shugart to Harrodsburg; Dr. Pierce, former President of Kentucky Wesleyan College, goes to Paris; Rev. Frohe to Grassy Lick. Conference Journal will be published from the ADVOCATE office.
